DETAILED ACTION

The preliminary amendment filed on August 28, 2003 has been entered. By this amendment, claims 1-23, 25-29 have been canceled, claims 31-44 have been added and claims 24, 30-44 are now pending in the application. Claims 24, and 30 directs to different subject matter, they are, therefore, subjected to restriction requirement set forth below:

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 24, 31-40, drawn to providing real time traffic weighted routes, classified in class 701, subclass 202.
 - II. Claims 30, 41-44, drawn to determining solution route between two locations, classified in class 701, subclass 209.
2. Inventions group I and group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because assigning real time traffic weight to road segments does not requires a special method for determining solution route between two locations of group II. The subcombination has separate utility such as finding optimal route between two locations.

Art Unit: 3661

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
